

## CLAIMS

What is claimed is:

- 5 1. A method of cleaning white garments comprising the steps of: forming a 10% thoroughly mixed aqueous solution containing a detergent, a bleaching agent and an enzyme agent; the detergent including a mixture of sodium citrate, sodium silicate, sodium carbonate, sodium sulfate and a surfactant, the bleaching agent including a mixture of hypochlorite, sodium chloride and sodium hydroxide, and the enzyme agent including sodium  
10 perborate monohydrate, STPP, magnesium sulfate and sodium sulfate; agitating the garments in the aqueous solution for not more than one minute; and soaking the garments in clear water for between 1 and 10 hours.
- 15 2. The method of claim 1 further comprising the step of forming the aqueous solution with the detergent comprising approximately 68% by weight of the detergent, bleaching agent and enzyme agent.
3. The method of claim 1 further comprising the step of forming the aqueous solution with the bleaching agent comprising approximately 27% by weight of the detergent, bleaching agent and enzyme agent.
- 20 4. The method of claim 1 further comprising the step of forming the aqueous solution with the enzyme agent comprising approximately 5% by weight of the detergent, bleaching agent and enzyme agent.
5. The method of claim 1 further comprising the step of forming the solution with the surfactant as a combination of anionic and nonionic surfactants.
- 25 6. An agent for cleaning white garments comprising: a 10% thoroughly mixed aqueous solution containing a detergent, a bleaching agent and an enzyme agent; the detergent including a mixture of sodium citrate, sodium silicate, sodium carbonate, sodium sulfate and a surfactant, the bleaching agent including a mixture of hypochlorite, sodium chloride and sodium hydroxide, and the enzyme agent including sodium perborate monohydrate, STPP, magnesium sulfate and sodium sulfate.

7. The agent of claim 1 wherein the detergent comprises approximately 68% by weight of the detergent, bleaching agent and enzyme agent.
8. The agent of claim 1 wherein the bleaching agent comprises approximately 27% by weight of the detergent, bleaching agent and enzyme agent.
- 5 9. The agent of claim 1 wherein the enzyme agent comprises approximately 5% by weight of the detergent, bleaching agent and enzyme agent.
10. The agent of claim 1 wherein the surfactant comprises a combination of anionic and nonionic surfactants.
